

California Congress of Clinical Neurology

September 24-25, 2022 | San Diego, California

**Clinical
Neurological
Society of America**

**Institute for
Patient Access**

This activity is jointly provided by Global Education Group and the Institute for Patient Access on behalf of the Clinical Neurological Society of America.

Target Audience

The California Congress of Clinical Neurology is designed to provide practicing neurologists with the most up-to-date information for the diagnosis and management of the patient with neurologic conditions. Each section is built around a specific clinical topic and is presented by experts who provide practical information for evaluation and treatment of patients with neurological conditions. This meeting is designed primarily for practicing neurologists. Other health care providers including fellows, residents, physician assistants, nurse practitioners, neurosurgeons, psychiatrists, social workers, doctors of pharmacy and neuropsychologists who work in patient care may benefit.

Statement of Need

To be more capable of practice at the level of the standard of care, neurologists need a better understanding of the pathophysiology of movement disorders, dementia, stroke, epilepsy, headache, MS/neuroimmunology and neuromuscular conditions. They also need improved diagnostic evaluation, treatment and management strategies in addition to novel approaches in monitoring patients with these conditions. This educational activity is designed to improve understanding of and use of current clinical practice guidelines and recent research findings in the participant's practice.

Educational Objectives

After completing this activity, the participant should be better able to:

- Identify novel laboratory tests for use in the diagnosis of cognitive and movement disorders.
- Discuss emerging therapies for Alzheimer's disease.
- Explain strategies for management of cognitive and psychiatric problems in Parkinson's disease.
- Outline appropriate use of deep brain stimulation in early-stage Parkinson's disease.
- Describe new medications for treating headache according to current clinical practice guidelines.
- Discuss new approaches and medications for treating patients with epilepsy.
- Describe the relationship between Epstein-Barr virus and multiple sclerosis.
- Explain how to use advanced diagnostics for stroke.
- Explain management approaches for patients with acquired inflammatory myopathy.

Physician Credit Designation

Global Education Group designates this live activity for a maximum of 11.5 *AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Physician Accreditation Statement

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of Global Education Group (Global) and the Institute for Patient Access (IfPA) in collaboration with the Clinical Neurological Society of America (CNSA.)

Global is accredited by the ACCME to provide continuing medical education for physicians.

Disclosures of Conflicts of Interest

Global adheres to the policies and guidelines, including the Standards for Integrity and Independence in Accredited CE, set forth to providers by the Accreditation Council for Continuing Medical Education ACCME and all other professional organizations, as applicable, stating those activities where continuing education credits are awarded must be balanced, independent, objective, and scientifically rigorous. All persons in a position to control the content of an accredited continuing education program provided by Global are required to disclose all financial relationships with any ineligible company within the past 24 months to Global. All financial relationships reported are identified as relevant and mitigated by Global in accordance with the Standards for Integrity and Independence in Accredited CE in advance of delivery of the activity to learners. The content of this activity was vetted by Global to assure objectivity and that the activity is free of commercial bias.

A complete list of all faculty and planners and managers along with their relevant financial relationships with ineligible companies can be found on the CNSA California Congress of Clinical Neurology website.

All relevant financial relationships have been mitigated.

Disclosure of Unlabeled Use

This educational activity may contain discussion of published and/or investigational uses of agents that are not indicated by the FDA. Global, IfPA and CNSA do not recommend the use of any agent outside of the labeled indications. The opinions expressed in the educational activity are those of the faculty and do not necessarily represent the views of any organization associated with this activity. Please refer to the official prescribing information for each product for discussion of approved indications, contraindications and warnings.

Disclaimer

Participants have an implied responsibility to use the newly acquired information to enhance patient outcomes and their own professional development. The information presented in this activity is not meant to serve as a guideline for patient management. Any procedures, medications, or other courses of diagnosis or treatment discussed in this activity should not be used by clinicians without evaluation of patient conditions and possible contraindications or dangers in use, review of any applicable manufacturer's product information, and comparison with recommendations of other authorities.

Global Contact Information

For information about the accreditation of this program, please contact Global at 303-395-1782 or cme@globaleducationgroup.com.

Scientific PROGRAM

SATURDAY, SEPTEMBER 24, 2022

7:30am-8:00am Registration

HEADACHE

8:00am-9:45am **New Treatments for Headache**
Hossein Ansari, MD, FAAN, FAHS Kaizen Brain Center & University of California San Diego

Management of Headache During Pregnancy
Addie M. Peretz, MD Stanford University School of Medicine

9:45am-10:15am **Break**

MOVEMENT DISORDERS

10:15am-12:00pm **Deep Brain Stimulation in Early-Stage Parkinson's Disease**
David Charles, MD Vanderbilt University Medical Center

Management of Cognitive and Psychiatric Problems in Parkinson's Disease
Kathleen L. Poston, MD, MS Stanford University School of Medicine

EPILEPSY

1:45pm-3:30pm **What's New in Epilepsy Treatment**
Gregory Bergey, MD, FANA, FAAN, FAES Johns Hopkins University School of Medicine

Epilepsy and Pregnancy
Kimford Meador, MD, FAAN, FAES, FRCPE Stanford University School of Medicine

3:30pm-4:30pm **Break**

4:30pm-5:30pm **Meet the Professor**
Gregory Bergey, MD Johns Hopkins University School of Medicine

Scientific PROGRAM

SUNDAY, SEPTEMBER 25, 2022

7:30am-8:00am Registration

DEMENTIA

8:00am-9:45am **Novel Laboratory Tests in the Diagnosis of Cognitive and Movement Disorders**
Douglas Galasko, MD University of California San Diego School of Medicine

Emerging Therapies for Alzheimer's Disease
Niyatee Samudra, MD University of California San Francisco School of Medicine

9:45am-10:15am **Break**

MS/NEUROIMMUNOLOGY

10:15am-12:00pm **Epstein Barr Virus and Multiple Sclerosis**
Jeffrey Dunn, MD Stanford University School of Medicine

Differences Across the Lifespan in Multiple Sclerosis
Jennifer Graves, MD, PhD, MAS University of California San Diego School of Medicine

STROKE & NEUROMUSCULAR

1:45pm-3:30pm **Stroke Update. Think Outside the Box - Cases to Challenge your Advanced Diagnostic Capabilities**
Shlee S. Song, MD Cedars-Sinai Medical Center

Acquired Inflammatory Myopathy
Bassam A. Bassam, MD, FAAN University of South Alabama College of Medicine

END OF PROGRAM

Scientific Program Chair
Kimford Meador, MD, FAAN, FAES, FRCPE

Committee Members
Niyatee Samudra, MD and Addie M. Peretz, MD
